Everything you ever wanted
to know about **shutters**

There's
something
about
shutters...

In one setting, they say tropical paradise. In another, they're penthouse chic. Look again and they're all about rich, traditional elegance. Flexibility is what makes shutters a favorite of top interior designers and leading architects all over the world.

You can rely on Shade-O-Matic® custom-made shutters to help make the statement you want to make. And you don't have to do it alone. A Shade-O-Matic® authorized Window Covering Specialist will work with you to develop ideas, choose the right features and options, and ensure absolutely perfect installation.

shade  **matic**®

I WANT:

Simple but sophisticated elegance

Exceptional durability and lasting beauty

A choice of neutral designer colours

Tropics® and Seaview® Polysatin shutters

Tropics® and Seaview® shutters are both beautiful and flexible enough to be used in any room in your home. They're especially good in rooms – such as kitchens, bathrooms and sunrooms – where high temperatures or humidity could be an issue.

Choose Tropics Polysatin shutters for our unique patented gear system, which eliminates the tilt-bar. Or create a more traditional look with our Seaview Polysatin shutters with the tilt-bar on the front or back.

Whichever you choose, you will have the peace of mind of knowing that our UV-resistant Polysatin shutters can't be warped by moisture, cracked by heat or discoloured by sunlight. Every component is impregnated with our DuraLux® smooth matte finish and never needs refinishing.

DuraLux  Finish®

I WANT:

- The warm look of wood
- Years of outstanding performance
- A choice of neutral and wood tones

Grandeur® Woodalloy shutters

Grandeur® Woodalloy shutters combine the warm look of wood with advanced engineered materials that will look beautiful for years to come. They also let you customize your look in so many ways. Choose from a wide range of colours, controls, hinges, louver sizes, panel configurations and frame styles to make a truly personal design statement.

And while you enjoy the consistency and warm look of wood, you know it's always protected by our strong, scratch-resistant NuTech® finish that's smooth to the touch and lustrous to the eye.

NuTech Finish®

Arch System

French Door Cut-Out

Bay/Bow Windows

Bi-Pass and Bi-Fold Systems

Special options for an extra special look

Ask your Shade-O-Matic® Window Covering Specialist about these unique options:

Arch and Specialty Shapes for Polysatin Shutters

Turns specialty shapes into stunning design accents.

French Door Cut-Outs for Polysatin Shutters

The perfect solution for French doors.

Bay/Bow Windows for Polysatin and Grandeur Woodalloy Shutters

Custom shutters add style and beauty to bay or bow windows.

Bi-Pass and Bi-Fold Systems for Polysatin and Grandeur Woodalloy Shutters

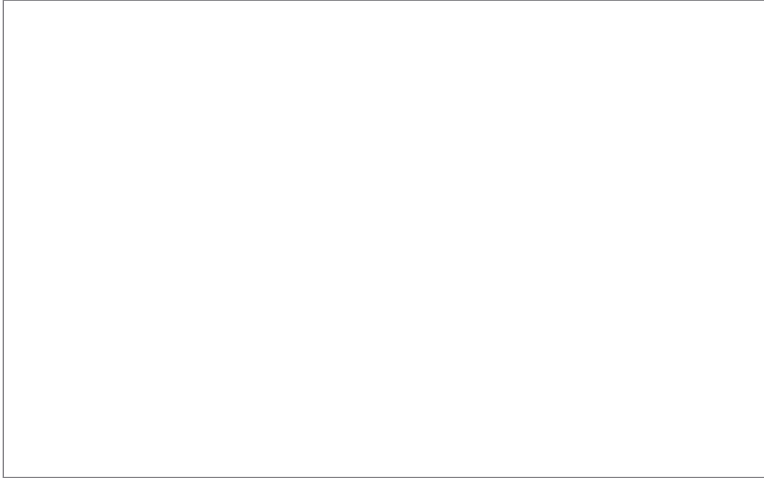

Ideal for large windows and patio doors.

Remember, professional service gets you professional results

All Shade-O-Matic® shutters are made to order, so you can always be sure they'll fit your windows perfectly. And when you choose Shade-O-Matic®, you'll work with an expert. A consultant will come to your home, measure your windows, and get to know you and your sense of style. Then, they'll help you choose the shutters that are right for your room and the look you want to create.

Look to Shade-O-Matic® Shutters for –
